

**S2 Science: how well is your learning progressing?**

<b>Key area: Renewables</b>	<b>I can do this.</b>	<b>I need to go over this.</b>	<b>I don't know this.</b>	<b>Level</b>
I understand the difference between the terms renewable and non-renewable.				2
I know how electricity is generated from the wind.				3
I can evaluate the pros and cons of making electricity from the wind.				4
I know how electricity is generated from sunlight.				3
I can describe factors that can have an impact on solar energy production.				4
I know how electricity is generated from water.				3
I know that geothermal energy is heat energy from the Earth's crust				3
I can discuss and evaluate the advantages and disadvantages of several types of renewable energy				4
